

4 Courses

**Web Application
Technologies and Django**

**Building Web Applications in
Django**

**Django Features and
Libraries**

**Developing and Deploying a
Complete Django Web
Application**

Oct 19, 2024

Sunil Kumar

has successfully completed the online Specialization

Django for Everybody

This specialization introduced Python programmers to building web sites using the Django library. Across the four courses, students learned HTML, CSS, SQL, Django, JavaScript, jQuery and JSON web services. Students built online web sites using Django that were graded throughout the four courses.. This series provides excellent preparation for learning other ways to build web applications using technologies like PHP, Flask or Ruby on Rails.

Charles R. Severance,
Clinical Professor of
Information, School of
Information

This certificate attests to the learner's completion of an online program delivered via Coursera. It does not constitute formal enrollment at any university or entity and does not itself grant academic credit, grades, or a degree. Institutions or organizations may, at their discretion, recognize this learning toward their own programs or credentials.
