Professional Summary

Computer Science graduate with a strong foundation in data analytics, SQL, Python, Microsoft Excel, and Power BI. Experienced in developing data-driven solutions through academic projects and research. Passionate about transforming raw data into meaningful insights using analytical thinking, visualization, and statistical techniques while continuously expanding expertise in business intelligence and data analytics.

Experience

Blockchain Development Intern

May 2024 – Aug 2024

Metacrafters

- Developed blockchain applications using Solidity and Ethereum.
- Integrated smart contracts with frontend applications.
- Collaborated with team members using Git and Agile development practices.
- Participated in testing, debugging, and deployment of decentralized applications.

Skills

Programming

- Python
- SQL

Data Analytics

- Microsoft Excel
- Power BI
- Pandas
- NumPy

Core Skills

- Data Analysis
- Data Visualization
- Statistics
- Git

Education

Bachelor of Engineering (Computer Science and Engineering)

2022 – 2026

Chandigarh University

CGPA: 7.04/10.0

Projects

GymBuddy Website

MERN

- Developed a responsive fitness web application with an intuitive user interface.
- Implemented workout planning and user-friendly navigation.

Blockchain Solutions for Fair Trade and Food Distribution System

2025

- Designed a blockchain-based framework to improve transparency and traceability in the food supply chain.
- Proposed smart contract integration for secure and tamper-proof transactions.

Deep Learning-Based NLP Framework for Context-Aware Social Media Sentiment Analysis

ICDAM 2026

- Developed a deep learning-based NLP framework for context-aware sentiment classification.
- Published the research paper in the International Conference on Data Analytics and Management (ICDAM 2026).

Certifications

- Blockchain Development Internship Certificate – Metacrafters
- Meta Database Engineer Professional Certificate – Coursera

Achievements

- Published research paper titled *Deep Learning-Based NLP Framework for Context-Aware Social Media Sentiment Analysis* at ICDAM 2026.
- Developed blockchain-based academic solutions focusing on secure and transparent supply chain systems.
